SHADOW OVER WHITE HOUSE

Wife of President Woodrow Wilson at Point of Death from Bright's Disease.

Washington, August 5.—Mrs. Woodrow Wilson, wife of the President of the United States, lies at the point of death tonight.

Four months of almost unbroken illness, a complication of nervous ailments and Bright's disease, have sapped the vitality of the first lady of the land. The end is regarded as a matter of days, perhaps hours. Her three daughters are at her bedside.

CHARLES NEWDIGATE

Aged Citizen of Maysville Passes Away at His Home in Sixth Street.

Mr. Charles Newdigate, a well-known resident of this city, died at his home in East Sixth street yesterday afternoon of a complication of diseases, aged 68 years.

He is survived by his wife, Mrs. Mary Newdigate and other relatives. Funeral services this afternoon at 2 o'clock at the graveside in the Maysville Cemetery, Rector J. H. Field, of the Episcopal Church having charge.

BURIED AT WASHINGTON.

The remains of Thomas McNally were brought here from Portsmouth, Ohio, this morning and interred at Washington.

Mr. James A. Wallace has accepted the agency for the Boston Insurance Co. He will be pleased to have his friends call upon him at No. 204 Market street or Harry L. Walsh's office on Court street, when in need of insurance. Satisfaction.

Mr. and Mrs. Arthur Pope of West Third street are rejoicing over the arrival of a fine nine pound daughter.

The drouth has again played havoc with the crops and garden truck.

HATS OFF TO DOVER

School District—95 Majority for the School Tax.

(Dover News.)

The School election Saturday afternoon to determine whether or not a tax of 15 cents on the hundred dollars should be levied in Dover district for the purpose of repairing and putting in sanitary condition the school building and grounds, and to elect a trustee, created more interest than the double-barreled primary giving an all day performance at the town hall.

One hundred and twenty-one votes were polled—108 for and 13 against the tax, which was a decided victory for better schools and put Dover school district on record as a progressive and up-to-date community.

For the first time the women took advantage of their right to vote in school elections and marched to the polls by the dozen, and only one of them voted against the tax.

The people seemed to realize that a failure to keep up the school building would be nothing short of a calamity to this community, and rallied to the support of the cause with the result as above stated.

The election for School Trustee for this District resulted in electing L. T. Fox.

DR. ARTHUR C. ADLER GOES TO THE FRONT.

Among the patriotic sons of the "Fatherland," Germany, who are responding to the call to the "colors" is Dr. Arthur C. Adler, the accomplished pharmacist who has been in the Williams Drug Store in this city for the past year. Dr. Adler who was born in Aix la Chapelle, France, is a member of a distinguished German family of noble birth, his mother being a countess of wealth and culture. Dr. Adler was long a resident of Berlin, was personally known to Emperor William, was an officer in the German army and an attaché of the German Embassy at Washington City.

The Doctor has gone to New York and will go to Germany if he can get a boat which is hardly likely. He formerly resided in Ripley. LATER—Dr. Adler reached Cincinnati and was told by the German consul that he could not get passage from New York.

Hence the genial doctor is back in Maysville.

Misses Anna Belle Hall and Mary Watson Hall, of Maysville, visited Mrs. Jennie Huff and Mrs. Elizabeth McDaniel over Sunday.—Nicholas Advo cate.

HORRORS OF WAR

Begin With Slaughter of Thousands on Land and Sea

Germany Fights For Life Controlled By Russia, France and England

LATEST WAR BULLETINS

German—Cruisers Breslau and Goeben and gunboat Panther reported captured.

Portland, Me.—Reports heavy firing off her coast.

Seventeen Alsatians shot by Germans trying to cross into France.

British—Mine-laying ship reported sunk by the German fleet.

German troops are reported to have entered Dutch and Swiss territory.

Russian warships have captured a number of German merchant vessels.

Reports of a naval engagement off the Scottish coast were untrue by the British government.

The German Cable was cut today between Europe and the Azores.

Announced the government would acquire foreign warships under construction in Great Britain.

King George called for volunteers for the army.

The British public showed some anxiety about food supplies, which brought reassuring statements from the government. A scheme of control is to be introduced to regulate prices.

England—Has notified Germany that a "state of war" exists between the two countries. English ambassador to Germany asked for passports.

Germany—Refused to accede to English demand that Germany respect Belgian neutrality. Diplomatic relations have been formally severed between Germany and France and Germany and Russia and a state of war declared between the countries.

France—Has declared war against Germany.

Russia—Has declared war against Germany and Austria-Hungary.

Belgium—State of war exists between Belgium and Germany.

Austria-Hungary—Declared war against Serbia.

Italy—A member of the Triple Alliance, has declared neutrality.

Turkey—Has declared neutrality.

Japan—Has declared that she will assist England if the latter is attacked in the Far East.

London, England, August 5.—Germany has sent an ultimatum to Italy. Heavy firing was heard at points on the North Sea today. Denmark is isolated, all ships and railroad communication having ceased.

Suspected spies, numbering forty, are being tried before the criminal court instead of by military authorities. London is quieter tonight than during any night of a week.

The American embassy staff, who have taken charge of German interests here, find they will have to face heavy work and it is probable that their staff will have to be reinforced.

German warships have destroyed some fortified towns and places for the embarkation of French troops on the coast of Algeria.

The Russians captured and burned the German station at Biala and cut communication from Lys to Johannesburg, the enemy falling back all along the front.

It is stated that Germans in Alsace are shooting all persons suspected of giving information to the French. The mayor of one town is said to have been shot for having tried to smuggle into France the news of the proclamation of martial law by Germany.

A German patrol has been routed by French cavalry on the Swiss frontier. Three of the Germans were killed and two taken prisoners. The remainder fled into Switzerland, where they were disarmed by the Swiss troops.

Germany in pushing its advance through Belgium, has met with strong opposition around Liege, where the Belgian forces, according to officials, have repulsed the German army of the Meuse under General von Emmich. The Germans are reported to have lost several thousands in killed and wounded.

Field Marshal Kitchener has been appointed Secretary of State for War in the British Cabinet and will have under his direction the military campaign against Germany. The French troops have joined the Belgians in opposing the progress of Germany through Belgium, and it is reported that possibly Great Britain may send troops also.

The President of the United States has proffered his services as mediator to the European nations at war.

Mobs Attack the Embassies.

The German Ambassador will leave England Thursday by dispatch boat. Both at St. Petersburg and Berlin the German and Russian embassies respectively have been attacked by mobs. The capture of a number of German ships by British fleets is reported and the British cruiser Amphion has sunk the Hamburg-American steamer, Koenigen Luise, recently converted into a mine-layer.

Russian frontier patrols have penetrated ten miles into Germany. Travelers returned from the North Sea bring word that no hostile warships are to be seen.

The port of Southampton has been closed to merchants. The American liner, St. Louis, has been ordered to Liverpool.

"Menaces Western Civilization"

Tokio, August 5.—The Japanese premier, Count Okuma, in an interview today, expressed his regret that the United States had not been able to mediate in the European conflict, which, if it continues, he said, would menace Western civilization. Japan, he continued, would have been happy to join the United States in mediation, but her possible participation in the war as an ally of Great Britain made her an interested party. The premier said that Japan, if she were compelled reluctantly to intervene, would protect the British colonies, but in no circumstances would she send a fleet or army to Europe.

To Fight High Prices.

London, August 5.—The authorities are taking all possible steps to allay public anxiety in regard to food supplies and prevent unjustifiable attempts to raise prices. The home office today issued an official statement to the effect that in addition to the four months' supply of wheat actually in the country or being harvested, there were large consignments of wheat now on the way here, much of which was already near British shores.

German Embassy at St. Petersburg Destroyed by Mob

Washington, August 5.—The German Embassy at St. Petersburg and the Russian Embassy at Berlin, are reported destroyed by mobs.

MARRIAGES

Mr. Fisher Elkin, aged 23, Virginia, and Miss Emma Pyffe, aged 19, Maysville, were married at the parsonage of the First M. E. Church South yesterday by Rev. M. S. Clark.

Mr. J. B. Allison, aged 31, farmer and Miss Lillie McDonald, aged 23, both of Mason County were granted license to get married.

Mr. Orma H. McKee, aged 25, farmer, and Miss Bertha Coy, aged 17, both of Mason County, were married by Rev. Charles Dugan.

MR. A. LEWIS MERZ RECOVERING FROM INJURIES.

Mr. A. Lewis Merz, one of the genial members of Merz Bros. Bee Hive store in Maysville, who met with painful but not serious injuries last Friday afternoon, when a street car jumped the track in East Second street, is now able to be up and about and may be down street to the store this afternoon. His main hurt was a wrenched back, which is mending nicely.

All rejoice over his recovery as he is one of the leading merchants of Maysville and Philadelphia.

Mrs. Addie Hill the other victim of the accident is also reported improving from her injuries.

FIRE LOSS IS ALL LOSS.

"Any insurance?" is the first question when a store or dwelling house or barn is burned. "Yes, loss fully covered," is a reply that makes the average man feel comfortably assured. "The company" stands in his mind for unlimited money and unquestionable solvency. Perhaps the draft that pays the loss comes direct from Hartford, Newark or Philadelphia; perhaps the company is an English or German one. The new buildings that rise on the blackened site are better than the old. The fire appears to have been clear gain.

But it was not; it was all loss. And it was not the company that lost, either. The loss did not fall on people of foreign lands, though the company's offices were in Liverpool or Hamburg. If the fire was in Missouri, the loss was borne by Missouri. Every building that burns in Missouri burns at the expense of the Missourians.

Every fire insurance company must charge enough to pay all losses and yield money to run the company besides. If it charges less it will fail and go out of business. It is not a matter of choice; it is a matter of necessity. Now the rates are made State by State. Missouri rates are made in the light of Missouri losses, of which careful records have been kept for many years. Sometimes the rates for a particular State are for a time, too high or too low; but it is in the very nature of things that such a state of affairs cannot last. In the long run each State carries its own loss.

Therefore, when a Missouri building burns, though the draft that pays the loss may come from London or Hamburg, New York or Newark, that is only sending back money previously collected from Missourians by companies doing business in those far-off cities. The Missourian who has a loss has it not at the expense of a foreign corporation, but at the expense of his neighbor or fellow citizens.

For fire loss is all loss. This is not universally true in the business world. We speak of profit and loss in many things that are mere matters of distribution. Jones gets less profit because Smith gets more. "What's one man's loss is another's gain," says the proverb. But this is not true in insurance. Insurance loss is all loss. No man made anything by the burning of Jones' barn or Smith's store. That much property simply went forever out of existence and nothing came back to anybody, and an insurance corporation collected from the friends and fellow-citizens of the man whose property burned just money enough so that instead of one man becoming a great deal poorer, 5,000 men become each just a little poorer.

That is all. Fire loss is nothing but loss. And every building that burns in Missouri burns at the expense of Missourians.—St. Louis Republic.

TWO PECULIAR COURT DECISIONS.

Two decisions of the United States Supreme Court, the upholding of the employers' liability law of the United States in so far as it applies to the territories, the other sustaining the ten-hour woman's labor law of Massachusetts, indicate a decidedly new trend in the decisions of the highest tribunal. It would have been easy for the court to rule against the Federal liability on the same grounds that resulted in holding it invalid in cases affecting the States, while there was at least some precedent for a decision adverse to the Massachusetts enactment. The personnel of the court has changed very greatly in recent years, and the atmosphere surrounding it has changed with the personnel. The court is composed of human beings, and has its alterations of sentiment like every other human institution. This has been demonstrated on more than one important occasion in the past.—New York Journal of Commerce.

Should think that by this time Mrs. Pankhurst would have "Holloway jail" engraved on her visiting cards.—Philadelphia Telegraph.

THE HIGH COST OF GOOD LIVING.

When the high cost of living is under debate it will be well to remember that it is in part the cost of good living. The people, or public officials on their behalf, are insisting on high food standards and naturally higher prices are the result.

A report of the health department of this city shows that 13,000,000 pounds of unwholesome food was confiscated and destroyed during 1913. No one will dispute the propriety of the health officers' action. Bad food ought not to be sold in New York. But it may as well be understood that the people paid for the 13,000,000 pounds just the same.

The shippers or purveyors from whom the seizures were made, and who were the losers in the first instance, may be sure were not out in the long run. The value of the destroyed material was simply spread out thin over the better food that was sold; the consumers paid the price and the dealers' balance sheets were none the worse on December 31.

One consolation remains to the public. It did not buy doctors' and undertakers' bills along with its fruit, milk and meat.

FACTS ABOUT IMMIGRATION.

From 1864 to 1882, 87 per cent. of the 6,000,000 immigrants were received from Northwestern Europe, mainly Germany, Great Britain and Ireland.

Since 1882, 87 per cent. of the whole were from Southern and Eastern Europe.

Of the earlier immigration 85 per cent. became naturalized citizens; of the later, 30 per cent.

In 1913 a new high-water mark—1,387,318 immigrants—was established, the larger part being Italians, Poles, Russian Hebrews and Austro-Hungarians.

Distribution in 1913—net immigration (arrivals less departures):

To the South, hungry for laborers, 22,024.
To the West (Mississippi River to, but not including, Pacific Slope), 53,618.

To six States, already overcrowded (New York, Massachusetts, Pennsylvania, New Jersey, Ohio and Illinois), 814,641.—Leslie's Weekly.

GIVE US THE WHOLE STORY.

Senator Simmons gleefully calls attention to the fact that while the increase of imports under the Democratic Free-Trade Tariff has amounted to \$81,000,000, yet from 1912 to 1913, under Protection, they increased by \$160,000,000. But he does not state that from 1912 to 1913 our exports increased by \$260,000,000, while under the present law during the past few months our exports have actually decreased. Give us all the facts, Senator.—American Economist.

Her Hero.

He loved her little;
He loved her much;
He called her dear,
Sweet, love and such.

"I would do anything for you—within reason," he cried.
"I would go through water for you."
"But not fire!" she retorted.
"No," he said doggedly, "no fire. I can't lie to you."
"The man I marry must be superlatively brave," she insisted. "I'm sorry—you have your good points, but you are a comparative coward. Would you stick your head in a lion's mouth for me?"
"No," he said. "That would be foolish."
"Would you jump from the steeple for my sake?"
"Johanna, no!" he cried agonizedly. "I can't lie to you. I would go through water for you—that's all I can think of just now. I am going now, never to return!"
"Good-bye," she said promptly, but just a shade sadly.
He put on his 1914 model French-crown straw hat and started.
"Stop!" she cried. "Any man that would walk down a public thoroughfare with a hat like that is brave enough for me!"

WEEKLY SPORT LETTER.

(By C. H. ZUBER.)

Cincinnati, August 5, 1914.—Judging by the start the Reds have made on their present invasion of the East, there is an excellent prospect of Manager Herzog's prediction that the team would return home in the first division coming true. Winning six out of the first seven games played on the eastern diamonds is a record of which the Reds may well be proud. Nor were these games won on flukes, but by the hardest and classiest kind of base ball. The team still has to tackle Philadelphia, Boston and Pittsburgh before returning home on Sunday, August 16, for the first of a series of contests with Brooklyn, New York following on Sunday, August 23, and Philadelphia being the last eastern Sunday attraction on August 30. If there was any proof needed that the Reds have "come back" to their form of early in the year, it was furnished by the three straight defeats administered to the new Yorks last week. In each of these games they outplayed the Giants at all points, showing better form and greater gameness than the prospective National League champions.

A poll of the Cincinnati team reveals the fact that of the men who started in the season of 1913 under the management of Joe Tinker, only two remain on the payroll of the Reds—Tom Clark and Rube Benton. Two others joined the team about the middle of last season, these being Groh and Ames. All the other members are of this year's vintage, the team's line-up offering the most complete change of personnel that any big league team has shown in many years. And who will say that this shake-up has not been for the best? It has brought into the team a bunch of young, ambitious and capable players to take the places of men who either were dissatisfied or whose outside interests prevented them giving as much attention to their team work as they should have shown. It will take some further time to weld these youngsters into a smooth running machine; but they are rapidly getting there, and will continue to improve as the season progresses.

What promises to be the greatest breeding farm ever established in Kentucky is in process of formation by Jefferson Livingston, the catnip king and who has entered the racing game on a large scale only during the past two years. Livingston was an owner of harness horses for many years, racing on the smaller circuits. Two years ago he started buying runners, and today owns one of the largest stables in America. As he always does things on a large scale, he has gone in for breeding in most comprehensive manner. At present he is in Europe purchasing blooded mares and stallions for the farm, and when the plant finally is fully established it will represent an investment of about \$1,000,000.

Looks much as if there would be no races for the America's Cup between Sir Thomas Lipton's Shamrock IV and the American defender—either the Resolute or the Vanitie—this fall. Sir Thomas Lipton, owner of the Shamrock, has declared that in the event of England being drawn into the present European war, he would call off the races, so far as the Shamrock is concerned. In view of the present situation it is certain that there will be no contests for the old pewter mug. The Shamrock is on her way to New York now and probably will remain on this side until the war is over.

Not only is the war responsible for the postponement of the cup races, but it also will take the meal tickets away from a lot of prize fighters. Georges Carpentier, the recently elevated "white heavyweight champion," is compelled to fight for his country with a rifle, while both France and England will suspend boxing games during the international hostilities. As all the money to be obtained from fighting on the other side was to be garnered in these two countries, it means a hike back home for the American boxers who were expecting to clean-up some over there between now and the merry Yuletide. Surely war is a helluva proposition for the sports.

WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches and Pains of Maysville People.

As one weak link weakens a chain, so may weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys, and generally when their activity is lessened the whole body suffers.

Aches and pains and languor and urinary ills frequently come, and there is an ever-increasing tendency towards dropsy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys. Maysville testimony is proof of their effectiveness.

Mrs. Annie McClellan, 541 W. Second St., Maysville, Ky., says: "I was often dizzy and nervous and my head ached. I had pain in my back and my kidneys were weak. Doan's Kidney Pills stopped the complaint immediately and made me well and strong."

Mrs. McClellan is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. McClellan had—the remedy backed by home testimony. 50c all stores. HOW FAR CAN YOU SEE?

The German army has been conducting some interesting experiments with a view to finding out how far off it is possible for one soldier to recognize another.

Soldiers with good eyesight can distinguish a person seen once before when 80 feet distant, an acquaintance 500 feet distant and an intimate friend or relative 500 feet distant.

An expert rifleman can distinguish any decided movement on the part of a man's body when the man is 300 feet away from him.

At 1800 feet a man appears as a spot on the landscape and, unless he moves, or his dress contrasts with the background, cannot then be distinguished.

Sailors, hunters and farmers, however, can usually see twice as far as other people, owing to their training in distinguishing distant objects.

It doesn't take much to constitute a suspicious circumstance in Arkansas. A Little Rock negro has been arrested for having a dollar bill in his possession.

For our part we don't see where the human family gained anything by doing away with witches and introducing bill collectors.

Doctor Speaks Out

to Coffee Drinkers

The *Boston Advertiser* of June 15, 1914, quotes Dr. D. H. Kress, of Chicago in an address as saying that tea, coffee and cocoa cause more deaths than alcohol.

"These table beverages are sapping the life of our nation. They are making us a race of weak-kneed, weak-livered beings, unable to reproduce ourselves. The kidneys and liver do not perform their proper functions, and the waste matter left in the system tends to bring on arteriosclerosis.

"Statistics show conclusively that as the consumption of coffee, tea and cocoa have increased the number of nervous diseases and insanity have increased proportionately."

This strong statement from a medical authority, cannot be lightly disregarded.

It is easy to prove in one's own case whether coffee is the cause of frequent "spells" of nervousness, indigestion, biliousness, liver complaint, headache, heart disturbance and other ills.

Quit coffee 10 days, and in its place use

POSTUM

—Then note the difference.

Made from prime wheat and a bit of molasses, Postum is a pure food drink, entirely free from the pernicious drugs in tea and coffee, or any other harmful substance.

In thousands of homes Postum supplies a table beverage, pleasant to the taste, and to be used freely as a re-builder, where coffee and tea tear down.

Postum comes in two forms:

Regular Postum, must be boiled, 15c and 25c pkgs.

Instant Postum, a soluble form, made in the cup instantly, 30c and 50c tins.

Grocers everywhere sell both kinds and the cost per cup is about the same.

PANAMA TODAY AND TOMORROW, SOME PICTURES AND PROPHECIES

Vivid Descriptions of Life in the Canal Zone By Dr. Earl Taylor—Only a Disastrous Earthquake Could Delay Opening of Great Canal on Schedule Time—Quaint Indian Village Where Natives Navigate in Solid Mahogany Canoes—"Vegetable Ivory" From Which Collar Buttons Are Made—A Land of Beauty and Great Promise—An Unaccomplished Task and a Spiritual Emergency—The Bright Side.

Dr. S. Earl Taylor of the Methodist Episcopal church gives the following fine and enchanting description of Panama, in which he tells of an unaccomplished task and a spiritual emergency.

"I was agreeably surprised during my entire stay at Panama. Before leaving America I had read much about the Gatun lock, and about the Culebra cut. In fact, I was led to think that the canal zone consisted primarily of locks and cuts, and that the whole thing would be rather dreary to a man not particularly interested in machinery or engineering feats.

"But to my great delight, I found the canal region full of human interest and also vastly attractive on account of its tropical scenic beauty. Few of us, I think, have fully realized that the canal zone lies well within the tropics. This means rich and varied foliage, and unusual forms of flora and fauna. Bananas, pineapples and coconuts grow in their natural state in this region. Rare butterflies, beetles and bugs of various sorts, some of them rich in coloring, are to be seen. And monkeys and curious wild turkeys are found in the forests.

Solid Mahogany Canoes.

"There are many Indian villagers along the coast and around the shores of the lake. It is most interesting to see them going to and from the trading places in their native dug-out canoes. These boats are very large, sometimes seven feet wide and thirty feet long, and are cut out of solid mahogany. The natives are skilled boatmen, and are able to navigate waters that would be impossible to the white man in his modern boat. Coming down to the trading places, the natives bring their boats filled with bananas, coconuts, yams and other articles of trade.

"The political, physical and sanitary aspects of the Panama canal problem have now been largely solved. The unaccomplished task is the spiritual one. I have no hesitation in saying this impressed me as being the most difficult and urgent of all.

The Unaccomplished Task

"Panama is peopled by one of the strangest mixtures of races to be found anywhere in the world. The only place at all comparable with it that I have ever seen is the city of Singapore. In the latter city, while almost every race under heaven is represented, the nationalities remain comparatively separate and distinct. But in Panama they are all merged. Aside from Americans and Europeans, there are hardly any people of pure blood on the Isthmus. Chinese, colored people from the West Indies, Panamanians and Spaniards have all mingled. There are also many evidences I regret to say, that Anglo-Saxon blood is being poured into this turbulent strain.

"The Americans are not setting a very worthy example from the stand point of things spiritual. The canal commission has repressed rather than encouraged aggressive Christian work. For instance, in the Young Men's Christian association popular throughout the canal zone and favored by the commission, a splendid work of the club-house type is being done. The associations, however, are definitely informed that they are to cut out the religious side of the work just as largely as possible.

"Church attendance on the part of the officials of the commission and the rank and file of our American canal workers is practically nil, and Sabbath observance, in the sense that we know it in America, is conspicuous by its absence.

A Spiritual Emergency

"To meet this spiritual emergency we have the merest handful of men and women, who are working against tremendous odds. I carried away the very distinct impression that our work is poorly equipped and inadequately manned, when we consider the task before us. If the American people are to grapple with the spiritual problem in the canal zone, it must be handled in a much more adequate way.

"On the other hand, there are many signs of promise. Some of the finest young fellows I ever met are active in our Christian work. If we had a better and more accessible equipment, no doubt many more could be enlisted.

The Bright Side.

"The work among the Panamanians and West Indians has many encouraging features. While I was in the city of Panama a great revival was in progress at our mission. Twenty-five persons went forward to the altar the first night, and fifty persons the second night. Our little chapel, which Brother Compton has built largely through personal effort and by the work of his own hands, without any funds from our board, is now taxed to the very limit. If Compton had an adequate plant down in that seething section of the city, and if he had a sufficient number of workers, I believe that thousands could be brought to Christ within the next three or four years, and a great church built up.

"Farther up the isthmus, at a place called Davis, they say there is a very fine opening for missionary activities. They would like to send a lately converted priest up there and begin work among the pure Panamanians. This would undoubtedly result in a splendid spiritual harvest.

"Of this I am certain: something must be done to bring the American people to a sense of their obligation in the spiritual regeneration of the canal zone, especially of the cities of Panama and Colon."

The old-fashioned man who paid his addresses to his sweetheart, now has a son who honks-honks to his Jane.

If the truth could be discovered probably it would be found that old Mrs. Nimrod was a bargain hunter.

It is, in a manner of speaking the bum sport who tries to alive defeat with an alibi.

WHO CAN DOUBT SWORN TESTIMONY OF HONEST CITIZENS

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night.

I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and coming sleep soundly.

NOTICE

The Feast in the Wilderness at Scot M. E. Church closed last Friday night with great success. It was the grandest affair ever held in the church.

The Curiosity Shop was quite a unique department. It had curios of all descriptions, heirlooms, and different things of precious value.

The needle work was of the finest that could be by any human hand. Such as fancy laces, beads and embroideries. The programs each evening were rendered nicely and well attended.

We thank all heartily who attended and gave us support.

Absent members of the House from Kentucky and other States were threatened with arrest by Speaker Clark, who declared that Congress must be continuously able to assemble a quorum during the European crisis.

Louisville department store manager are anxious over the safety of buyers row in Europe and are worried about stocks of merchandise bought in foreign centers and now due for delivery.

A nationwide fight to stamp out social diseases in the United States was inaugurated at the annual convention of the American Osteopathic Association in Philadelphia.

Bowling Green won its fight for lower freight rates from the East through an order of the Interstate Commerce Commission.

He was a relative of the late John G. Hickman and the Ransom family.

CELEBRATING 45th WEDDING ANNIVERSARY

Mr. and Mrs. M. C. Chisholm of East Second street today are celebrating the forty-fifth anniversary of their wedding day.

To have lived happily together for 45 years is earthly reward enough for husband and wife, let the storms be what they will.

The Public Ledger extends Mr. and Mrs. Chisholm the best of wishes on this notable occasion.

MacLaren, authority on war, asserts that the loss of life in battle since authentic history began amounts to 1,400,000,000, or the entire population of the globe for the last 300 years.

From 1683 until 1815 the Old World saw 65 years of solid warfare, which cost the people \$5,945,000,000, not counting a debt of \$4,000,000,000.

PELLAGRA SPREADING

Says Secretary McCormack of the State Board of Health and a Conference Is To Be Held.

Reports from health officers in widely scattered sections of the State indicate a large increase in the number of cases of Pellagra. The State Board of Health at the suggestion of a large number of local health officials, has called a second conference for the study of Pellagra, together with a Conference of County and City Health Officers, at Pineville, Ky., for August 18, 19 and 20. During this conference the laws enacted at the recent session of the Legislature for prevention of blindness will also be discussed and steps will be taken looking to making them effective. Hundreds of physicians from all parts of the South will be present at the meeting. A. T. McCormack, Sec.

ANOTHER BILLION OF CURRENCY PROVIDED BY ACT OF CONGRESS.

Washington.—More than \$1,000,000,000 in currency is to be added to the circulating medium in the United States, by the action of Congress to meet the situation resulting from the European crisis. This new money, backed by the prime assets of the banks, may be issued under a modification of the bank law, passed in both the House and Senate, then compromised in conference and approved by the Administration for final action in both Houses today.

VALUABLE ZINC ORE FOUND.

Marion, Ky.—A rather remarkable vein of sulphide of zinc ore has made its appearance at Carrsville, Livingston county. From the Ohio River at a low tide a very clean-cut, high-grade sulphide of zinc is found.

WAR BULLETINS

(Continued from first page.)

A German "White Book" throws responsibility for war on Russia and France.

German troops have penetrated French territory near Mars-la-Tour, scene of a bloody battle in 1870.

Gen. Joffre, French commander-in-chief, left for the front.

The United States embassy in Paris is to work after German interests in France and after French interests in Austria.

Austrian troops are reported to have been defeated with heavy loss by the Serbs.

German army aviators dropped bombs on the French fortress of Lunenburg, causing little damage and no loss of life.

Japan officially declares she may join the war if England be involved in the Far East.

The North German Lloyd liner Kronprinzessin Cecilie returned to American waters at Bar Harbor, Maine, allaying anxiety as to the fate of the large amount of gold on board.

A German cruiser bombarded a French naval station in Algeria and then retired.

Neutrality declaration issued by President Wilson.

United States warships will take gold to Americans in Europe.

The armored cruiser Tennessee will leave New York at 8 p. m. today with between \$5,000,000 and \$8,000,000 in gold for Americans in Europe.

Assistant Secretary Breckinridge of the War Department, and a representative of the American Red Cross Society will sail on the Tennessee.

WAR TIME.

There is a difference of from five to ten hours between European time and American time. There is a difference of two hours between London and St. Petersburg time and more than an hour's difference between London and Vienna time.

The following table shows the time in European cities in countries either at war or on the verge of war when it is noon in New York:
